

FOR IMMEDIATE RELEASE**EZ LYNK Introduces New Cable for 18+ Ram**

December 19, 2019 - EZ LYNK now offers a new diagnostic cable compatible with the Auto Agent 2 for full diagnostic support on the 2018+ RAM. The new cable features the standard OBD diagnostic port connection and a direct network connection. There is no need to backpin or splice the OBD connector, or remove the radio; Simply plug it in - It's that EZ.

The Auto Agent 2 OBD Cable with 18+ RAM SGM Adapter (Part Number 100EE00C09) will retail for \$34.99. Warehouse Pre-orders are shipping now; We recommend contacting your preferred warehouse distributor to place your order today.

Installation: The cable attaches to the OBD port, the SGM adapter plugs directly into the STAR Connector CAN port under the dash. The STAR Connector can be found on the far left side, underneath the dash, near the door frame. Two STAR Connectors can be found side by side, the SGM adapter plugs into the Black and Green STAR Connector. Secure the Auto Agent under the dash using the supplied cable ties. Install the Auto Agent app and follow the onscreen instructions to monitor, diagnose, and/or update the vehicle with ease.
